Dear Mr. McGrane:

Pursuant to the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 C.F.R. § 388.112(e) (2020), you are hereby notified that the Commission intends to release, in part, material requested by Mr. Michael Mabee pursuant to the Freedom of Information Act (FOIA).¹ In this regard, Mr. Mabee is seeking the names of Unidentified Registered Entities (UREs) associated with various FERC dockets including, among other dockets: NP12-10.

On April 27, 2021, Commission staff notified the North American Electric Reliability Corporation (NERC), as well as an affiliated entity of one of the UREs associated with NP12-10 of the request and provided an opportunity to comment pursuant to 18 C.F.R. § 388.112.² On May 4, 2021, NERC provided comments.

Identities of URE

A case-by-case assessment of the requested information must consider: the nature of the CIP violation(s); whether mitigation is complete; the content of the public and non-

² The URE was deregistered in 2016. Also, please note that NP12-10 is a "spreadsheet" docket and that notification of the FOIA request and this Notice of Intent to Release deals with only one of the UREs contained therein.

public versions of the Notice of Penalty; the extent to which the disclosure of the pertinent URE identity would be useful to someone seeking to cause harm; whether an audit has occurred since the violation(s); whether the violation(s) was administrative or technical in nature; and the length of time that has elapsed since the filing of the public Notice of Penalty. An application of these factors will dictate whether a particular FOIA exemption, including 7(F) and/or Exemption 3, is appropriate. *See Garcia v. U.S. DOJ*, 181 F. Supp. 2d 356, 378 (S.D.N.Y. 2002) (“In evaluating the validity of an agency’s invocation of Exemption 7(F), the court should within limits, defer to the agency’s assessment of danger.”) (citation and internal quotations omitted).

Based on application of the various factors discussed above and in consultation with FERC technical staff, I determine that the disclosure of one of the names of the UREs associated with NP12-10 is appropriate. A copy of the public version of the spreadsheet Notice of Penalty with the name of the URE inserted on the relevant page will be disclosed to the requestor no sooner than five calendar days from the date of this letter. *See* 18 C.F.R. § 388.112(e).
